## ARTICLE 8: Alterations to Units and Service Courts

- 8.1 Authorization Needed:** No Unit Owner shall make any alteration of or improvement to a Unit or Service Court, which would result in the removal, replacement, or otherwise affect any load bearing wall or partition, without the prior approval of the Board. Detailed drawings/plans will be required for authorization and the authorization process itself will be determined by the Board.
- 8.2 Unit Alterations:** All changes to a Unit, except cosmetic changes, such as painting, new cupboards, countertops or flooring, etc., and any items that are a Unit Owner's responsibility with respect to the exterior of the Unit, require Board approval prior to the start of any construction or demolition. The Board reserves the right to require detailed drawings/plans for authorization.
- 8.3 Service Court Walls and Roofs:** Interior walls (dry wall or plywood) and roofs are not original to the design of Service Courts. Unit Owners may install interior walls and roofs, at their own cost and will be responsible for their

## RULES AND REGULATIONS

maintenance. Installation or replacement of a Service Court roof requires the prior approval of the Board. Design drawings may be required.

**8.4 Stop Work:** The Association reserves the right to stop any work affecting the exterior of a Unit, a load-bearing wall or partition within a Unit, or the exterior of Service Court that is begun without its prior approval.

**8.4.1** The Association reserves the right to (i) require that the area be returned to its original appearance at the Unit Owner's expense and (ii) that the Unit Owner remove all unapproved work at the Unit Owner's expense. The Association also reserves the right to perform any corrective actions necessary with respect to unapproved work and bill the Unit Owner for the cost.

**8.4.2** The Board reserves the right to also levy a fine pursuant to **Section 12.5** against the Unit Owner for any unauthorized alteration to the exterior of a Unit or Service Court to the extent authorized by the Governing Documents and Florida law.

### **8.5 Construction Dumpsters and Materials:**

**8.5.1** Unit Owners seeking to use a construction dumpster for interior remodeling must seek prior approval from the Manager and must obtain a dumpster permit from the Manager.

**8.5.2** The proposed location of the Dumpster must be approved by the Manager. Once the Manager approves the location, the Manager shall issue a dumpster permit to the Unit Owner, which shall be displayed in the Unit Owner's window visible from the street at all times.

**8.5.3** A dumpster permit allows a Unit Owner to keep a dumpster within the Condominium for a period of fourteen (14) days, provided the Unit Owner is in compliance with all requirements relating to dumpsters established by Florida law and the Board.

**8.5.4** Extensions of a dumpster permit must be approved by the Manager.

**8.5.5** Dumpsters must be placed on  $\frac{3}{4}$  inch plywood of sufficient size to prevent the dumpster wheels from contact with the road or parking space in order to avoid damage to any Condominium roads, parking spaces or sidewalks. If damage to the Association's roads, parking spaces or sidewalks occur, the Unit Owner shall be responsible for the cost of all repairs.

# Fishermans Cove

## RULES AND REGULATIONS

- 8.5.6** Dumpsters must be emptied when full or bi-weekly, whichever is sooner.
- 8.6** **Construction Materials and Debris:** Construction materials and debris left on the ground, or in a parking area, without the permission of the Board, shall be subject to removal at the responsible Unit Owner's cost. Such Unit Owner may also be subject to a penalty or fine as set out in **Section 12.5**.
- 8.7** **Portable Toilets:** The placement of portable toilets requires a permit from the Manager. Construction workers, including those working for the Association, are not allowed to use the restrooms at the pool.
- 8.8** **Storage Containers:** The placement of storage containers requires the prior approval of the Manager and shall be subject to the same permit requirements as for dumpsters.
- 8.9 The Architectural Review Committee (ARC)**
- 8.9.1** The Board has established an Architectural Review Committee (ARC) to review and recommend action on improvements to Units or Limited Common Elements. The ARC is also empowered to establish certain guidelines set out in our policies (shed roofs, railings, *etc.*), which have been or will be approved by the Board, to guide Unit Owners on what types of improvements are acceptable.
- 8.9.2** Prior to making any improvements on a Unit, a homeowner should consult the Association's Governing Documents, these Rules, and the Association's policies to determine (1) whether the proposed improvement would be allowed, and (2) whether review by the ARC, and subsequent approval of the Board is required.
- 8.9.1.1** With the exception of light landscaping between a Service Court (shed) and outer kitchen wall, and certain interior remodeling of a unit that does not involve commonly-owned pipes, *etc.*, a Unit Owner should assume that he or she will need the approval of the Board for any improvements.
- 8.9.3** In addition to the approval of the Board, a Unit Owner may need the approval of the Sawgrass Master Association for any improvements that are not "in-kind" (*i.e.*, changing a window for one of the same size, number of panes, and color).
- 8.9.3.1** The ARC can help determine whether an ARC Application needs the approval of the Sawgrass Master Association.

## RULES AND REGULATIONS

**8.9.3.2** The Association's property manager will forward ARC applications to the Sawgrass Master Association, when necessary.

**8.9.4** ARC Applications may be obtained from the Association's website: [www.fishermanscoveassociation.com](http://www.fishermanscoveassociation.com) or from the Association's property manager, May Management. A copy is attached as an Appendix to these Rules.

### **8.9.5 Preparing an ARC Application**

**8.9.5.1** In preparing an ARC application, a Unit Owner should include as much information as possible, including (but not limited to) the following:

**8.9.5.1.1** A detailed description of the proposed improvement;

**8.9.5.1.2** An indication of whether the proposed improvement is a "like-for-like" replacement. For example, if a Unit owner wishes to replace a window or door, the Unit Owner should state so in the ARC application, and include manufacturer specifications that contain the size, the color, the number of panes (if applicable);

**8.9.5.1.3** Photographs of the site, the existing item to be replaced (as the case may be), and proposed improvement;

**8.9.5.1.4** Any drawings (even hand drawings on photographs) or manufacturer specifications; and

**8.9.5.1.5** Specific reference to the Governing Documents, Association Rules, and Association Policies that would allow the proposed improvement.

**8.9.6** In certain cases, reliance on Board-approved policies may be used to streamline the amount of information a Unit Owner will be required to provide in an ARC application. For example, if a Unit Owner want to install a shed roof or railing on a deck, the Unit Owner can simply attach a copy of the Association's Shed Roof Policy or Railing Policy, which contains the specifications that the Board has approved for shed roofs or railings, as the case may be. The Unit owner must also make an affirmative statement that the shed roof or railing will be built to these specifications.

**8.9.6.1** A Unit owner should consult with the Board's Property Manager or the ARC to determine whether a Board-approved policy can be used to streamline an ARC application.

# Fishermans Cove

## RULES AND REGULATIONS

### 8.9.6 The ARC Process

- 8.9.6.1 An ARC process is started when a Unit Owner submits a signed ARC application to May Management. Applications may be submitted via U.S. Mail, by email to May Management or in person to May Management.
- 8.9.6.2 Once an ARC application is submitted, the Unit Owner will receive a notification from May Management that the ARC application has been received and forwarded to the ARC for review.
- 8.9.6.3 A Unit Owner may receive questions for further information about a proposed improvement during or as a result of the ARC's review.
- 8.9.6.4 Once the ARC deems that it has sufficient information to determine whether to recommend approval of an application, the Unit Owner will receive a communication from May Management that the ARC application is completed, *i.e.*, has been deemed sufficient for the ARC to be able to make a recommendation for the application to the Board.
- 8.9.6.5 Once an ARC application has been deemed complete, the Board will make a determination of whether to approve or deny the application within thirty (30) days. The thirty (30) day time limit will not begin to run until an application is deemed complete by the ARC.
- 8.9.6.6 ARC applications that address landscaping issues with no hardscaping will be forwarded to the Landscape Committee, which has authorization to approve certain landscape-only applications with no Board review under Section 7.13 of the Rules and Regulations. The Landscape Committee will act on a landscaping application within thirty (30) days of receipt by the Landscape Committee.
- 8.9.6.7 All approvals or denials from the Board, or the Landscape Committee, as the case may be, will be in writing and provided to a Unit Owner via U.S. Mail. A copy of an approval may be emailed to a Unit Owner as a matter of courtesy.
- 8.9.6.8 After approval by the ARC, the proposed improvements must commence within six (6) months, or approval must once again be obtained from the ARC. Once construction begins, it must proceed diligently and in accordance with the Association's Rules.

Approved: May 15, 2018, effective June 1, 2018, as amended effective January 16, 2020.

In all events, the Board shall recover the reasonable expenses of such removal from the Unit Owner responsible for the vehicle.

## THE FISHERMANS COVE ARC REVIEW PROCESS

The following information will assist you in submitting your request to the Architectural Review Committee (ARC) for improvements you wish to make on your property.

### I. BEFORE YOU BEGIN

Before you begin a unit improvement project, you should consider the following:

- A. **Is my proposed improvement allowed?** Before you make any improvements on your Unit, you should read the Fishermans Cove Condominium Association Declaration of Covenants and Restrictions and Fishermans Cove Rules and Regulations, which are provided on our website: [www.fishermanscoveassociation.com](http://www.fishermanscoveassociation.com).
- B. **Do I need any prior approval from the Fishermans Cove Condominium Association?** With the exception of light landscaping between your service court (shed) and outer kitchen wall, and certain interior remodeling of your unit that does not involve commonly-owned pipes, etc., you should assume that you will need the approval Board for any improvements.
- C. **Do I need any prior approval from the Sawgrass Master Association?** In addition to the approval of the Fishermans Cove Board, you may need the approval of the Sawgrass Master Association for any improvements that are not “in-kind” (*i.e.*, changing a window for one of the same size, number of panes, and color) or do not meet Fishermans Cove’s specifications.
- D. **Where do I obtain an ARC Application?** You can obtain an ARC application form from our website or by going to the appendix to the Association’s Rules, or by contacting the Association manager, May Management, at 904-273-9832.
- E. **How do I request approval?** The Board has established an Architectural Review Committee (ARC) that has established guidelines for submitting an ARC application. It has also established certain guidelines (shed roofs, railings, *etc.*) that you should review and give to your contractor **before** submitting any request for approval of improvements. Copies of these documents can be obtained from our website or May Management.
  1. In preparing your application, include as much information as possible. Examples:
    - a. If you want to replace a window or door, include in your application whether it is a “like-for-like” replacement, and the size, the color, the number of panes.
    - b. If you want to add or replace your shed roof or railings on your deck, you can simply attach a copy of the Shed Roof Policy or Railings Policy, which contains the specifications that the Board has approved for shed roofs and railings, respectively, and state that your shed roof or railing will be built to these specifications.
  2. Photographs of the site or improvement, such as a window or door, to be modified are very useful and may be required if requested by the ARC.

3. Any drawings (even hand drawings on photograph) or manufacturer specifications are useful and may be required if requested by the ARC.
  4. References to Board-approved policies and regulations are very helpful.
- F. How long does the ARC process take?** The length of the process will depend upon how long it takes for you to submit an application that provides sufficient information. Once you have submitted an ARC application that the ARC deems provides all of the information necessary for it and the Board to make a decision, the Board will act within thirty (30) days.

## II. THE FISHERMANS COVE ARC PROCESS

- A.** Submit a signed ARC application to May Management. Applications may be submitted via U.S. Mail, by email to May Management or in person to May Management.
- B.** Once you submit your ARC application, you will receive a notification from May Management that it has been received and forwarded to the ARC for review.
- C.** You may receive questions for further information about your proposed project during or as a result of the ARC's review.
- D.** Once the ARC deems that it has sufficient information to determine whether to recommend approval of your application, you will receive a communication from May Management that your application has been deemed sufficient for the ARC to be able to make a recommendation for the application to the Board.
- E.** Once your application has been deemed complete, the Board will make a determination of whether to approve or deny your application within thirty (30) days. The thirty (30) day time limit will not begin to run until an application is complete by the ARC.
- F.** ARC applications that address landscaping issues with no hardscaping will be forwarded to the Landscape Committee, which has authorization to approve certain landscape-only applications with no Board review under Section 7.13 of the Rules and Regulations. The Landscape Committee will act on your application within thirty (30) days.
- G.** All approvals or denials from the Board, or the Landscape Committee, as the case may be, will be in writing and provided to you via U.S. Mail. A copy of an approval may be emailed to a unit owner as a matter of courtesy.
- H.** After approval by the ARC, the proposed improvements must commence within six (6) months, or approval must once again be obtained from the ARC.
  1. Once construction begins, it must proceed diligently and in accordance with the Board's Rules.
